

Sandor Norbert Pinter

Senior Software Engineer

pinter.sandor.norbert@gmail.com | +44 7766 195638 | Twickenham, London, UK | github.com/zeratulok

PROFESSIONAL SUMMARY

Senior Software Engineer with over 20 years of experience delivering backend and full-stack solutions, including 12+ years at Sky. Currently part of the PCMS/ATOM team, building and operating Java-based microservices on AWS and Kubernetes that underpin Sky's Single Platform multi-tenant streaming services (NOW, SkyShowtime, Peacock). Strong background in CI/CD automation (GitHub Actions), event-driven architecture (Kafka), test automation, and DevOps practices, with a track record of technical leadership, mentoring and cross-team delivery.

TECHNICAL SKILLS

Cloud & Platform	AWS, Kubernetes, Sky Core Platform, VMware, Docker, CloudFoundry
CI/CD & Automation	GitHub Actions, Jenkins/Hudson, Bamboo, TeamCity, Ansible
Languages	Java (8-21), Python, JavaScript/TypeScript, SQL, Shell, C/C++
Messaging & Data	Apache Kafka, JMS, PostgreSQL, MySQL, Oracle PL/SQL
Frameworks & Tools	Spring (Boot, MVC, AOP), Hibernate, JUnit, Spock, AngularJS, REST, Git, Maven/Gradle
Methodologies	Agile/Scrum, DevOps, TDD, BDD
Earlier-career	PHP, NodeJS, Android(+NDK), Flex, GWT, EJB3, ANTLR, Hessian, SOAP, Wicket

WORK EXPERIENCE

Senior Software Engineer — Sky

Jul 2014 - Present (12+ years) | London, UK

PCMS / ATOM Team (c. 2016 - Present) — PCMS underpins Sky's Single Platform multi-tenant streaming services (NOW, SkyShowtime, Peacock).

- Design, build and operate backend microservices in Java (8 → 21) using Spring Boot
- Deploy and run services on AWS and Kubernetes, including Sky's internal Core Platform cluster
- Use VMware-based infrastructure to host internal tooling applications
- Build and maintain CI/CD pipelines with GitHub and GitHub Actions
- Use Apache Kafka for event-driven and streaming data integration between services
- Contribute to the team's test automation strategy (unit, integration, end-to-end); use Python for scripting/tooling
- Aggregate data (JMS, HTTP, flat files) into unified JSON APIs consumed by NOW apps (mobile/web/box); contributed to AngularJS front end

Infrastructure Team (c. 2015 - 2016)

- DevOps-focused role improving build and automated test processes department-wide
- Introduced Docker, Ansible, CloudFoundry and Sky's VMware-based VDC service
- Reduced integration test execution time from ~1 hour to 20 minutes
- Built self-service tooling for developers to spin up full environments from their branches

Better Checker Project (c. 2014 - 2015) — sky.com/shop: integrated online DSL-availability checker into the CMS.

Online Shop Project (2014) — sky.com/quickbuy: refactored backend to integrate with newest customer and portfolio services.

Technical Lead — Mobile Travel Technologies

Jul 2013 - Jul 2014 | Dublin, Ireland

- Managed development team for LATAM Airlines mobile app (iOS/Android): check-in, Passbook, flight status, MyTrips, loyalty
- Owned architectural design and coding guidelines; hands-on Java and Node.js development
- Introduced branching strategies to support feature roll-outs
- Line-managed 6 developers, acted as Scrum Master, primary technical customer contact

Technologies: Java, Spring MVC, Node.js, JSON, JBehave, JUnit, Sonar, Android, iOS

Senior Developer / Framework Specialist — KBC Global Services

Dec 2012 - Jul 2013 | Budapest, Hungary

- Investigated migrating monolithic apps from Spring Webflow-based framework to a greenfield Wicket-based framework
- Built a bridging library enabling incremental migration while remaining embedded in the existing application flow

Technologies: Spring Webflow, Spring MVC, Spring AOP, JSP, AGF, Wicket

Ramp-Up Development Team Lead / Scrum Master — EPAM Systems

Mar 2012 - Dec 2012 | Budapest, Hungary

- Led a team building a market event-processing simulation generating simulated trading orders
- Mentored graduate developers on core Java, Agile/Scrum practice and requirement handling

Technologies: Java Core, JUnit, JBehave, ANTLR; mechanical sympathy topics

EARLIER CAREER

- **Chief Developer and Architect**, IP Systems Ltd, Budapest (Sep 2009 - Mar 2012)
- **Senior Java Developer**, Molaris Ltd, Budapest (Apr 2009 - Sep 2009)
- **Senior Java Developer**, Avis Group BSC, Bracknell UK / Budapest (Jul 2008 - Apr 2009)
- **Java Developer**, Siemens PSE Hungary, Budapest (May 2007 - Jul 2008)
- **Software Engineer / Java Developer**, Siemens PSE Hungary, Budapest (Mar 2005 - May 2007)

EDUCATION & ADDITIONAL TRAINING

BSc (Hons), Informatics Engineering — University of Kecskemet CM Engineering and Automation, Hungary (1999 - 2003)

Management Skills for Technical Professionals — Beckinridge (2013)

Quality Assurance Manager — Siemens PSE Learning Center (2007)

STRENGTHS

- Quickly and efficiently masters new methods, technologies and techniques
- Strong interpersonal and communication skills
- Creative, pragmatic problem-solving

INTERESTS

Technology enthusiast with hands-on personal projects spanning home automation, VR and robotics (Raspberry Pi, speech recognition, VR development in Unity). Enjoys reading and mentoring.
